Re: Notice of File Closure for Small Mining Operations, Bunnell 22, S/019/040 and Proposed Processing Facility, S/019/042, Grand County, Utah

Dear Mr. Landry:

On May 7, 1998, we received a copy of the Bureau of Land Management letter to you stating they are closing their file for your Bunnell 22 Project UTU-72526, located in Sections 25 and 26, T20S, R21E, Grand County, Utah. Because this project is located on BLM managed lands, we will also close and retire our file for this project.

On April 29, 1997, we sent you a small mining application form for your processing facility which was to be associated with the Bunnell 22 Project. In a telephone conversation on April 24, 1997, we were informed that the processing facility would be located on private land in Section 29, T22S, R24E. We assigned file number S/019/042 to the anticipated processing facility. To date, we have not received a notice for this proposed processing facility. Because we are closing out the Bunnell 22 Project file, the file for the associated processing facility will also be retired and closed.

If you wish to conduct future mining at this site, you must submit a notice to the appropriate agency and receive written approval before creating any surface disturbance. If you have any questions or concerns regarding this action, please contact me at (801) 538-5267.

Sincerely,

Anthony A. Gallegos  
Senior Reclamation Specialist
